IPC APEX EXPO 2018 will help your company move at the velocity of technology
The electronics industry's leading event combines education and insights to keep you up to speed.

From the industry's leading technical conference and application-focused professional development courses, to the innovation-driven exhibit floor, IPC APEX EXPO 2018 will be packed with far-reaching ideas and insights. Attendees at all career stages can expect to:

- > Access new material- and process-related research and best practices.
- > Learn more about trending materials, applications and processes such as Industry 4.0 and wearables
- > Address real-world problems: we teach the practical to help attendees succeed at their job
- > Experience the largest electronics industry collection of top suppliers, live demos, and extreme innovation
- > Make connections in educational sessions, on the show floor and during networking events
